## Coatings Conditions Survey William Preston Lane, Jr. Memorial Bridge (Route 50 over the Chesapeake Bay)

**Client/Owner:** Maryland Transportation Authority

**Project Location:** Annapolis, MD

CCC&L performed a coatings condition survey on the eastbound William Preston Lane, Jr. Memorial Bridge. Project involved:

- Identifying critical coating needs along with the associated costs, and working with the owner on developing the scope of work for three contracts to complete the work.
- Preparing the technical specification sections for Cleaning and Painting and Environmental and Worker Protection.
- Developing the engineer's cost estimate for painting items and assisting in evaluating bids.
- Providing construction phase services by reviewing certain contractor submissions and replying to field questions.
- Participation in monthly progress meetings.
